Form of the Willow Sentinel

Casting Test	d10 + 3	Effect Test	d10 + 3
Casting Time	10	Aspect	Elemental
Range	Touch	Level	3
Duration	Sustained (Fading 1 level for every 1 Combat Round when no longer maintained)		
Target(s)	Creature Attribute		
Effect(s)	Alteration , Manipulation		

This spell allows the caster to take on the form of the willow sentinel, a natural tree like form incapable of mobility. The character can attack, and retains all mental functions. However, if any attack or spell is cast, the form weakens as the character resorts to his or her natural form. The effect test result equals the strength of the form, i.e. the dispel difficulty as well as the character's damage resistance to all damage except fire.
